IT'S HERE-- DAYLIGHT TIME

Yoo-hoo! You there with that sleepy look in your eyes. Better set your clock up ahead an hour before you retire Saturday night or Sunday morning, as the case may be.

If you get to bed before midnight you probably wouldn't want to get up at 2 a.m. Sunday to set the clock up to 3:00, or would you?

This daylight time schedule will continue until the last Sunday in October. If you travel it is a good thing to remember that not all states forsake standard time for half a year.

payroll and other operating expenses.

A discussion was held regarding re-roofing of Carpenter St. School gym. Two bids were received, one from Adler Roofing Co. and one from Star Roofing Co. The Star Roofing Company bid was low but complete written specifications will be required before bid is accepted.

An unofficial assessed valuation of the district was reviewed. An increase of \$290,219.00 was reported, going from \$10,186,837.00 to \$10,477,156.00.

Fourth Not Too Far Off At Mokena

Junior College Program Presents Many Problems

The junior college question has many sides and angles, educators are pointing out these days.

There is a move to establish a Class I junior college to serve an area with Joliet as a central point. Lincoln - Way High School district has been included. The proposed college would have territory in Will, Grundy and Kendall counties.

Several committees are busy getting things lined up for a referendum at which the organization of such a college district would be decided by the public. So far no date has been set.

To pass, such a proposal would have to receive a majority of the votes cast in incorporated as well as in unincorporated areas.

If approved the district would be a separate taxing body, operated by its own board of education. The state and federal governments would pay 75 per cent of the cost of building a junior college and the state would give more aid to a Class I college than just a junior college.

Those who have been studying the matter believe that a Class I college in the area described could be operated on a tax rate of about 10 cents per \$100 of equalized assessed valuation.

If such a college is set up in the area, and Lincoln-Way is a part of it, some of the questions the high school now faces will not have to be answered, it was said.

As the law stands now high school districts not in a junior college district are supposed to pay the tuition fee of high school graduates living within its boundaries

who plan on attending a junior college.

Students who want their tuition paid must file a request with the high school district prior to July 1, 1966. Lincoln - Way High School will have forms available for such applications shortly, according to Supt. A. Hunter Chapman. In the meantime, he said, several letters have been received in which the writers sought information on where and how to file tuition requests. When the application forms are ready, Chapman said, they will be forwarded to the writers of these letters and any other eligible student who applies.

The law covering the formation of junior colleges carries a provision that these tuition charges are to be paid out of common school funds and such funds as can be raised by a 3-cent tax levy per \$100 equalized assessed valuation. Proponents of the junior college plan designed the law, it is claimed, so as to provide a club to whip reluctant areas into line on the question of establishing junior college districts.

A number of educators have pointed out that they consider the use of the educational fund of a high school district to pay college tuition to be illegal. It is quite conceivable, they declared, that such a procedure could leave a high school district without sufficient funds to operate.

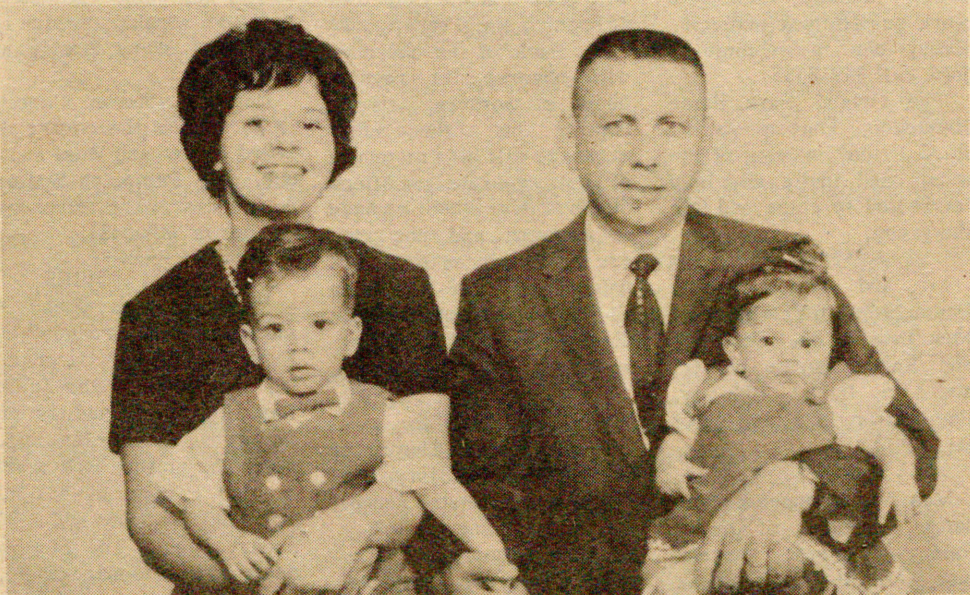

What the Lincoln - Way High School board will decide on this is a matter of policy that the members will have to thresh out, it was explained.

Whether the board would

dip into its high school funds to pay tuition for junior college students or limit the amount of tuition the district pay to the amount raised thru the 3-cent levy, is the question.

Either way, it was said, the district might face litigation. If it uses the high school money for college purposes it is conceivable that it would be slapped with a taxpayer's suit; if it refuses to do this someone might sue in behalf of the students, it was brought out.

If, however, a Class I Junior College District is established within the next couple of months, it was said, there would be no questions to answer except those concerned with setting up the new junior college.

Frankfort Prepares Street Repair Plan

A resolution covering maintenance of certain arterial streets in the village of Frankfort, plus a couple not so classified, was adopted by the village board at its regular meeting Monday night.

The total cost of the program was estimated at some \$7,200, according to figures prepared by Village Engineer Robert Hamilton. The money will come from the village's share of the motor fuel tax money collected by the state.

The arterial streets are Maple, from Pacific to Nebraska; Walnut St., from Pacific to Nebraska; Oregon and Pacific. Pacific between Oak and a point 400 feet east is non-arterial as is Center from LaPorte to the E.J. & E. tracks.

It is possible that the work on Maple St. will be limited to correcting the drainage and keeping down the dust. The trucks using the Waldvogel milk depot use Maple St., and Trustee Lynn Kohlhaugen said that repairs there wouldn't last. He estimated that it would cost in excess of \$20,000 to reconstruct the street to withstand the heavy traffic. There were no objections raised at the zoning hearing on the milk collecting center, it was pointed out by village officials.

Village Attorney August Santoro reported receipt of an opinion from Tec Search Research, community planners, relative to the rates set up for giving sewer service to the Franciscan Sisters religious community, St. Francis of the Woods. The Sisters are paying for all the extension of the sewer and will pay for the treatment of sewage. Tec Search found the rates to be fair and equitable. They had already been approved by the bond house that bought Frankfort's sewer bonds.

Tech Search was asked for an opinion at the request of Burton Breidert, chairman of the planning commission. The bond house recommended giving the service because it would not overburden the treatment plant and would be profitable to the village. Santoro will proceed with the negotiation of the contract with the Sisters.

A delegation of homeowners from Connecticut Hills, some of whom were found to have leaks in their sewer lines according to smoke tests made several months ago, were granted a reprieve by the village board. It was agreed that when the next heavy rains occurred the outflow from their homes would be measured to determine how much surface water such leaks were putting in the mains.

The board is working on a revision of its zoning ordinance, a committee of eight is to be set up to draft the measure, two from the planning commission, two from the zoning board, two from the industrial committee and two from the village board.

At its next meeting the board will shelve other business to devote full time to the appropriation ordinance. Albert H. Krusemark is asking approval of a subdivision of 10 lots along Evergreen Drive. Three of the lots have 90-foot frontage, three of 85 feet and three 80 feet. One lot is approximately 76 feet wide on one end and 121 feet on the other.

In March the Frankfort Fire Department answered seven calls. There was an attic fire in a motel March 7; March 14, Glenn Nagel home; March 16 and March 31, defective furnace in an Arbury Hills home; March 18, a car fire; March 19, a grass fire; March 27, garage fire.

L-W Musicians Win Sweepstakes

Lincoln-Way High School musicians, band and chorus members, were winners again this year of the Sweepstakes Award for Class A high schools in Area II. In the past five years Lincoln-Way has won the Sweepstakes Award three times and has been runner up twice. Class A schools are those whose enrollments range from 550 to 1,500.

The award is made on points won by a school in the band, chorus and solo contests. Lincoln-Way amassed 238 points, it was announced by Robert Taylor, head of the music department and band director. This was approximately 100 points higher than its nearest competitor.

The finals that counted in the Sweepstakes, the solo and ensemble events, were run off last Saturday at the Crete-Monee High School. There were 26 schools in the competition.

The band and chorus were graded in the contest conducted March 12 at Lincoln-Way. Tom Olson is in charge of the choral work. Aiding Taylor and Olson is another teacher, Randolph Kummer.

A large plaque, which was presented to the winner, is now on display with the other trophies at Lincoln-Way.

L-W Board Organizes

The Lincoln-Way High School board has organized for the coming year. At its meeting last Thursday it canvassed the vote cast in the election April 9 and elected officers.

Four members were elected April 9, Wendell Morrison, Frankfort; Earl Moss, New Lenox; Elias Brown, Mokena, all incumbents, for full three year terms, and George Preston to fill an unexpired term of one year.

Morrison was elected president of the board, succeeding Mrs. Beatrice Link; Dr. Lowell Webb was chosen as vice president, and Brown was re-elected secretary.

The board also adopted a policy concerning the board presidency. A president cannot succeed himself.

Discuss Plans For District Library In Mokena Area

Formation of a district library to serve the Mokena area is now under consideration by a group of interested citizens.

Efforts to establish a township library have failed. It was pointed out that the tax base for a village library would be inadequate so attention has been turned to a district set-up. The district proposed would follow the confines of the Mokena grade school district, with the exception of Rolling Heights which is in the New Lenox township and New Lenox township has a tax supported library. It was said, however, that the Mokena district could be

NOTICE OF HEARING TO CHANGE SCHOOL BOUNDARIES

Public notice is hereby given that on the 30th day of March, 1966, there was filed in the office of the undersigned, a petition asking that the following described territory be detached from Community Consolidated School District No. 56-C, Will County, Illinois, and attach said territory to School District No. 161, Will County, Illinois.

The legal description is as follows: Beginning at a point 1204.70 feet East of the center of Section 14, Township 35 North, Range 12 East of the Third Principal Meridian in Will County, Illinois, thence Northeast at an angle of 135 degrees 32 minutes along the Indian Boundary line 495.66 feet, thence West 67.32 feet to the point of beginning, containing approximately 3 acres, all located in Will County, Illinois.

Public notice is further given that a hearing on said petition will be held on Tuesday, the third day of May, 1966; that said hearing will be held by the County Board of School Trustees of Will County, Illinois, in the office of the Superintendent of Schools, Room 411, Emco Building, 57 West Jefferson Street, Joliet, Illinois, at 8:00 P.M. on said day.

Dated this 18th day of April, 1966.

Secretary of the County

enlarged to include Arbury Hills if that was the desire of the people there.

The Arbury people have been talking of moving the old Summit Hill school building to the Arbury Hills school site and use it as a library.

The committee takes the stand that a library should be located so that it can be reached by foot, pointing out that if the location required use of a car the institution would be little used.

The library now in use at Mokena is operated by the volunteer, non-professional help of Mokena Book Club members. The Mokena Lions Club pays the rent and occasionally donates for new books. The book club itself has a maximum of \$100 a year to spend for new books. Sometimes individuals make gifts of books, and that is the extent of the library's resources. Without additional funds for books the library's collection for children will be worn out soon. The adult collection will have very few new books, it was said, and there will be no opportunity for magazine service.

In the past the Mokena library and others like it have depended upon the loan of books from the state library to provide patrons with reading and reference material.

Now that is out. The 1965 General Assembly passed a new library law. One of the provisions is to deny the use of state books or state aid to non-tax supported libraries. Only tax supported libraries can get help from the state or Federal governments, it was said.

If a Mokena district library should be approved at a referendum and a tax voted for its support, it would become a part of a large library system with participation in group buying, access to a central depot for books and many services that would be beyond the Mokena budget, it was explained.

About six months ago representatives from the various sections of Frankfort Township began holding meetings in an effort to agree upon plans for a township library, such as New Lenox and Lockport have.

It was suggested that several outlets or branches be established so they would be of easy and safe access. However, it was reported, the Frankfort contingent was firm in its stand for a central library to serve the entire

Because of his long devotion to the Democratic Party and its principles, Rep. Loughran has become known in many circles as "Mr. Democrat."

During the lean years for the Democratic Party in Will County, Loughran virtually kept it alive with his hard work and vigor.

The testimonial to Rep. Loughran will be attended by a long list of dignitaries headed by Gov. Otto Kerner, it was stated.

Others invited to be here are U. S. Senator Paul Douglas, Secretary of State Paul Powell, Lt. Gov. Samuel Shapiro, Atty. General William G. Clark and State Auditor Michael J. Howlett.

Leo J. Meehan, Chairman of the Regular Democratic Organization, said that the entire facilities of D'Amico's "214" are being reserved for the occasion. He expects some 1,800 to attend.

Dinner will be served at 7 P.M., but will be preceded by a social hour starting at 6 P.M.

Meehan said that tickets can be purchased from Birkey or Berk or any precinct committeeman.

**“C’m on Bernie,” said Bernie’s wife.
“If we buy electric whole-house
air conditioning now,
we can save money.”**

**So Bernie did.
Did Bernie save money?
You should see his smile.
Read how you can save, too.**

The contractors who install electric whole-house air conditioning aren’t busy right now (it’s between seasons). In order to keep busy they are strongly inclined to make special money-saving deals for smart folks who want to keep cool.

Last year, 25,000 smart Chicago area folks installed electric whole-house air conditioning. Join the smart crowd. (Bernie did.) Your heating contractor can make you a member. Air-condition now.

With electric whole-house air conditioning you’ll have the least expensive air conditioning available, both in the cost of the unit (as little as \$800 in an aver-

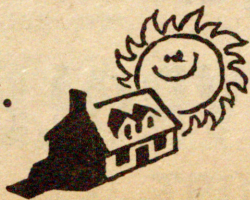

age 6-room house) and cost of operation (about 40 cents a day during the air-conditioning season).

And with electric whole-house air conditioning you’ll enjoy cool, filtered, dust-and-pollen-free air. You’ll be really comfortable, and you’ll sleep better and eat better. Best of all, you’ll know it is one home-improvement you’ll get your money back on if you ever sell your house.

Now you know why 25,000 electric whole-house air conditioners were installed in the Chicago area in 1965. And why you’d better beat the crowd in 1966.

Pulpit Exchange Sunday, April 24

Telephone: 479-9451
Sunday, April 24th, at 10:45 a.m., St. John's United Church of Christ and the Mokena Methodist church will hold special services of worship for the observance of Ecumenical Pulpit Exchange Sunday. The Rev. Laslo Hunyady and the Rev. Robert Watson will exchange pulpits for this Sunday, as part of the nation-wide observance involving seven Protestant denominations-- African Methodist Episcopal, Disciples of Christ, Evangelical United Brethren, The Methodist, United Church of Christ, and United Presbyterian in the U.S.A. In Dallas, Texas, May 2-5, the Fifth Consultation on Church Union (COCU) will be held involving these seven denominations, which are conversing with each other through their representatives about the possibility of a church which would demonstrate greater unity than we now have. These consultations began in 1962 with the presentation of the Blake-Pike Proposal, which received nation-wide attention. Much work needs to be done before any concrete recommendations will be submitted to the respective denominations.

The object of the exchange of pulpits is to stimulate the thinking of the membership of the denominations involved in the consultation,

to promote understanding, and to beseech God's help and guidance, so that the results of this series of meetings of the COCU may bring the denominations together more fully under the Lordship of Christ.

Sets Up Job Center

Lincoln - Way high school, working thru the Student Council, has established a job-finding committee for the purpose of finding after school, evening, weekend, and summer employment available to students in the Lincoln - Way area. Anyone having openings for employment of this kind, now or in the future, is requested to refer to the school.

Speech Teacher To Address Mokena PTA

BY SHEILA WELLMAN
 "What Does The Speech Teacher Do?" is the topic being presented by Mrs. Wilma Wegler, speech teacher for Mokena schools, at the April meeting of the Mokena PTA. Anyone having had a child participating in the speech program will know what wonderful results have been obtained thru the efforts of Mrs. Wegler and it should prove most interesting to learn of some of the methods used in her work with the children. The meeting is April 26, 8 p.m. in Willowcrest School. Hostesses are the second grade room mothers. Troop #387 is to present and retire the colors.

Mrs. Robert Best, president-elect, and Mrs. William Bradley, Jr. are this year's

delegates to the PTA State Convention being held in Chicago at the Conrad Hilton Hotel, April 21, 22 and 23. There will be a workshop for new officers May 12 at 7:30 p.m. in Willowcrest School. The PTA Executive Board will serve. Also in May, pre-school vision testing will be done. This program is made possible thru the Will County Health Department, Mokena Lions Club, and the Mokena PTA. One of the several eye defects that can be detected thru this test is amblyopia. Date, time and place to be announced later.

Again the Mokena PTA will award the Elizabeth Cappel Scholarship of \$100 to a deserving graduate of Lincoln-Way High School. To qualify for this scholarship

a student must have a good academic record, good citizenship and be a graduate of the Mokena Public School. For the purpose of raising the necessary funds for the scholarship the recent rummage and bake sale was held. A profit of \$109 was reported by Mr. Fagan, Ways and Means Chairman. To all those who participated,

Thank you.
 Volunteers working at the Willowcrest School Library during April and May are: Mrs. James Craft, Mrs. Ervin Friant, Mrs. Robert Mackie, Mrs. Richard Michalik, Mrs. W. J. Puro, Mrs. Wayne Ryder and Mrs. Paul Wagner. Library hours are 10 - Noon on Saturdays.

March Milk Price In Chicago Market \$4.03

The March milk price to be paid Chicago market dairy farmers will be the order blend price of \$4.03 per cwt. on all milk received at plants located within the Chicago milk marketing area which covers Cook and DuPage counties and adjoining areas in Lake, Kane and Will counties. W. H. Cope, director of marketing for Pure Milk Association, reported today.

Producers whose farms are located within approximately 70 miles of Chicago will receive a superpool premium of 5 cents per cwt. on all their milk deliveries. Other premiums of either 5 or 10 cents per cwt. will be paid on all producer deliveries by plants which qualified for superpool premiums by shipping required percentages of their milk to the Chicago market.

The March blend price is for milk of 3.5 percent butterfat test. The differential for each one-tenth of one percent butterfat above or below 3.5 percent is 7.6 cents per cwt.

The order provides a distance differential or producer prices for milk de-

livered outside the marketing area. The differential is a 2 cents per cwt. deduction from the producer price for each 15-mile zone measured from the city hall of Chicago.

The \$4.03 order price is a blend of the order Class I (bottled) milk price of \$4.30 per cwt. and the Class II (manufacturing) milk price of \$3.68 per cwt. March utilization figures show 46 per cent of the market milk utilized as bottled milk and cream and 54 per cent as Class II.

The superpool additions to the producer price come from a \$4.62 per cwt. Class I milk price announced earlier this year by Federated Dairy Cooperatives. The \$4.62 price is 32 cents per cwt. over the \$4.30 market order price. Its purpose is to assist farmers in meeting rising costs of production.

As a result of the \$4.62 announced Class I milk price, the dairy farmer receives 9.93 cents per quart from the 46 percent of milk used for bottling purposes in March.

March deliveries of milk under Chicago Order 30 totaled 466,333,728 pounds. This was 89 million pounds or 16 percent below March deliveries a year ago.

Expresses Gratitude To Orland Firemen

A letter that made members of the Orland Park Volunteer Fire Department feel good was recently received by Chief Arthur Granat from Mrs. Eugene Barnard.

The letter follows:
 "In the past, whenever I heard the fire siren and saw the Rescue Squad going to the aid of someone in distress, I just took it for granted. But on Feb. 28, when I was stricken with acute chest pains, and my neighbor had to call the fire

department to come to my aid and rush me to Christ Community Hospital, I suddenly found the true value of your wonderful service.

"You and your men heeded the call so quickly and handled the situation in such a proficient manner.

"Please accept my deepest gratitude to you all for your kindness and for a job well done.

"Thanking you all for all that you did for me and hoping God will bless each and everyone of you, I remain, Sincerely,"

THE LINCOLN-WAY High School Chapter of the Future Homemakers of America have placed three girls as Section Twenty Officers. They are (l. to r.) Gay Logan, second vice-president; Gloria Kubeck, treasurer; and Jo VanRheeden, first vice-president. Section Twenty includes 20 area schools. Lincoln-Way holds three of the nine section offices.

School Population At Mokena May Triple By 1975, Report States

The work of the Lay Citizens Committee to study Mokena schools is progressing with the final report of the Population Committee being submitted at a recent meeting. Presented by Willy Muehler, Jerry Nelson and James Tilsey, this report projected school enrollment to 1975.

Based on population growth figures developed by eight groups including utility companies, school groups and government agencies, the report indicates that the school

population will at least double and may be three times as large as at present. This careful survey along with recommendations based on it will be turned over to the Mokena School Board for future guidance.

A slide presentation by Eugene Malone of the Will County Farm Bureau was also included on the agenda. The next meeting will feature the final report of the Education Committee which has been studying methods and theories of education.

Two members of the Carl Sandburg High School science department recently attended meetings in Washington, D.C. and New York City.

Ed. Triner, biology teacher at Sandburg, along with 15 other specially invited high school and college biology teachers, attended a two-day conference in Washington, D.C. The meeting involved the revision of the "Green Version" biology textbook and was sponsored by the Biological Sciences Curriculum Study and Rand McNally.

Mr. Triner stated that the main purpose of the meeting was to provide discussions and "feedback" information between the writers of the text and the teachers who actually use the materials. In this way the continued improvement of biology education in the nation's schools is insured.

Sandburg has offered both the "Green Version" Biology course which is ecologically oriented and the "Blue Version" which emphasizes biochemistry, for the past four years. In addition, the biology teachers at Sandburg have tested, evaluated and helped in the writing of BSCS materials for a second year course and a program for the slow learner.

On April 1 thru April 5, James Keith, Chairman of

the Sandburg science department, attended the 14th Annual National Science Teachers Association convention in New York City. The theme was "Science: Content, Communication, Controversy," and the emphasis of the various portions of the meeting was on up-dating and improving the knowledge and skills of science teachers throughout the country.

In discussing the convention, Keith stated that in addition to the seminar and panel presentations designed to improve the science teachers' work with their students, an opportunity was also provided to see and hear about new equipment, materials and curriculum approaches which have recently been developed. The attendance by more than 5,000 teachers and supervisors from all fifty states, Canada, and fourteen foreign countries proved the interest of science teachers in upgrading their work and the importance of effective science teaching in today's schools.

The high point of the meeting, according to Keith, was an address by Dr. Linus Pauling, winner of the Nobel Prize in Chemistry in 1954 and Nobel Peace Prize recipient in 1962, on "The Social Responsibilities of Scientists and Science".
